Previously on DroidBTC Bitcoin Miner, this is a Bitcoin, Litecoin and Dogecoin miner for Android based on Simran Singh's AndLTC Miner (id=com.simran.andltcminerpro) and pooler cpuminer (This will mine all cryptocurrencies using SHA-256 or scrypt, which include Bitcoin, Litecoin, Feathercoin and Dogecoin, among others. FAQ.....
-----Q: Why do you say "empty tables, can't you connect executable" or similar? A: Fixed in version 1.0.1.1. Q: Why does _____ pool not work? A:Stratum was added in version 1.2. Please update for Stratum support. Q: Why is GPU extraction not supported? A:Most manufacturers do not issue OpenCL (GPU computation API) drivers for mobile devices. Only the Nexus 4 and Nexus 10 have support for it in Android 4.2, and as drivers are not included in Android 4.3, there will be no GPU extraction on Android in the near future.
